DETAILED ACTION

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 53 and 55-59 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-46 of U.S. Patent No. 6,015,200. Although the conflicting claims are not identical, they are not patentably distinct from each other because applicant merely uses different terminology to claim the same device. The main difference between claims 1-46 of U.S. Patent No. 6,015,200 and claims 53 and 55-58 of pending application 09/342,25 is that applicant now claims "a first light reflecting and/or diffusing area provided on a second side opposed to said entrance face and **inclined** toward the first side." Claims 9 and 24 of U.S. Patent No. 6,015,200 claims that the first reflecting area on the second side is **angled** with respect to the light exit area. There is no structural difference between claims 53 and 55-58 of applicant's claimed invention and claims 1-46 of U.S. Patent

No. 6,015,200 and therefore claims 53 and 55-59 are properly rejected under the judicially created doctrine of obviousness-type double patenting.

Response to Arguments

Applicant's arguments with respect to claims 53 and 55-59 have been considered but are moot in view of the new ground(s) of rejection.
